## S90 I

### DESCRIPTION

- Super sensitive and super sensitive product with good grip and cut resistance.
- Manufactured using 15 gauge yarns, designed to be close fitting to give maximum dexterity (finger movement).
- The coating on the palm is black PU (coating takes place from the top of the fingers to the bottom of the cuff, effectively isolating the hand of foreign materials, or liquids).

### RECOMMENDATION

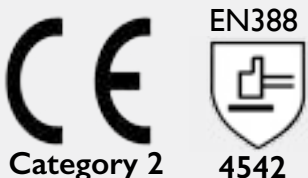

- Construction
- Car manufacturing
- Products where there is a risk that the hands can be easily injured
