

Tek Blue

DESCRIPTION

A lightweight, 15 gauge cut resistant Level 5 Glove with a nitrile foam coating.

- Manufactured with 15 gauge needles which increases comfort and dexterity.
- Reinforced between the thumb and index to give better cut resistance in this fragile area.
- Coated with a nitrile foam palm which makes the glove excellent against oily, greasy environments and hydrocarbons.
- Foam Nitrile gloves offer excellent dexterity, grip and breathability.
- Close fit makes the gloves ideal for work requiring accuracy and fine movements of the hand and fingers.

RECOMMENDATION

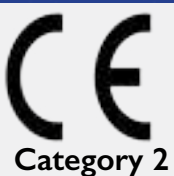

- Used to provide protection against sharp blades, edges where oily, greasy or wet applications are involved.
- The coating can prevent water penetration and provide excellent resistance against abrasion, cuts, snags, and punctures.
