For businesses who want expertise they can rely on to keep their people safe, Tilsatec offer high performance hand and arm protection. We manufacture our own proprietary cut resistant yarn - the primary source of mechanical protection, on site in the UK. This means we can deliver maximum performance in every fibre of what we do. Because when our gloves perform at their best, your people can perform at their best.

## 58-4110

## 18 gauge ultra lightweight PU palm coated cut level D glove

The 58-4110 represents the next generation in our innovative range of cut resistant gloves. Delivering D cut resistance to EN388:2016, the 58-41 range is a new family we have designed specifically for this category. Providing good all round mechanical protection, durability and grip in a form-fitting 18 gauge liner, you no longer have to choose between protection and dexterity.

Combined with the ultimate in fingertip touch sensitivity and tactility, the robust PU palm coating delivers good grip even when slight oil/ lubricants are present. Wearers can switch from hand tools to small components with ease, reducing the need to remove gloves between tasks.

- · Ultra fine 18 gauge seamless engineered liner
- EN388:2016 level D cut resistance
- Rhino Yarn™ cut resistant technology
- · Extremely high level of fingertip sensitivity and tactility
- · Ideal for small hand tool use and assembly
- · Handles slight oil/liquids/lubricants well
- Touch screen compatible
- · Seamless liner and cuff gives a smooth, comfortable feel

## **Applications / Industries**

- · Final fix / Light assembly
- Automotive assembly
- Electrical fittings/components
- · Light metal fabrication / stamping / press
- Aerospace
- Construction
- White goods manufacturing
